After her journey to healing, she discovered how to take a devastating situation and turn it into a blessing. Now, Chezza's passion is to share her story with others to help them make conscious choices to move into a place of health and well-being, regain their dignity and restore wholeness.

Chezza is a licensed aesthetician, certified in collagen rejuvenation and medical tattooing, she advocates for safer, chemical-free alternatives in personal care products. She is the author of "The 1 Element, Conversations With Visionary Entrepreneurs and Thought Leaders" and donates a portion of the proceeds to those in need of medical tattooing. Chezza's passion and conviction spill over into the audience as she warms the stage and their hearts.
